 **orient**
electric

switch to smart

A GLIMPSE
— OF THE —
FUTURE

OVER SIX DECADES OF TRUST, INNOVATION AND EXCELLENCE

Our journey started more than 65 years ago with a simple thought of making efficient, elegant and long-lasting electric fans. Since then, we have grown, embracing new frontiers in technology and innovation to emerge as a brand leader as well as a thought leader in the Indian fans industry. Our enduring commitment to quality, excellence and innovation has enabled us to storm the market and remain a frontrunner in the segment through the years. Not only this, but we have also paved the way for pioneering developments in home appliances, lighting and switchgears.

Today, we are the largest manufacturer and exporter of fans from India with a dominating presence in over 40 international markets. In the domestic market, we have a well-organised distribution network reaching 1,25,000 retail outlets and a strong service network covering more than 450 cities. We take pride in our R&D capabilities, spirit of continuous innovation and commitment to manufacturing cutting-edge lifestyle electrical products that meet the needs and expectations of new age consumers.

We are focused on building sustainable competitive advantage through a culture of innovation, whilst keeping our consumers at its core. Our endeavour is to unravel and surface the latent consumer needs and meet them with befitting solutions which make life simpler and experiences better.

STATE-OF-THE-ART FAN MANUFACTURING FACILITIES

Many of the innovations in the fan industry that are now taken for granted came from the research of Orient Electric's R&D centres and from our urge to bring top-quality products to Indian consumers. We have been routinely introducing pioneering manufacturing processes and technologies thus setting new industry benchmarks in terms of performance, design, energy efficiency and convenience.

Our state-of-the-art ISO-certified manufacturing facilities at Faridabad and Kolkata employ some of the most modern technologies, such as automatic stator winding plants and automatic liquid paint shops, so as to improve productivity and to meet the increasing consumer demand for quality products.

Quality being the key driving force behind everything we do at Orient Electric, we conscientiously follow the Six Sigma processes to manufacture zero-defect products. In India, we are the pioneers of die-casting the rotor and fan body cover in ceiling fans and the semi-automatic coil-winding process.

As a market-responsive company, we have positioned ourselves around innovation and it gets reflected in our new generation of innovative and premium fans that satiate the needs of consumers seeking pride in their contemporary interiors.

ORIENT ELECTRIC M I L E S T O N E S

1939 The journey begins.
Factory established in Kolkata.

1954 Inducted into the CK Birla Group.
Renamed as Orient Fans.

1965 Became the first Indian company to
introduce die-casting of the rotor and
fan body cover in ceiling fans.

1969 Factory established in Faridabad.

1990 Developed & patented the revolutionary
PSPO technology for fans.

2014 New brand identity unveiled.
Rebranded as Orient Electric with the
positioning statement of 'Switch to Smart'

2014 Launched energy-efficient BLDC fans.

2016 Launched its own E-commerce portal.

2016 Unveils the 'Very Silent Very Powerful'
Aeroquiet premium ceiling fan.

2017 Opened a manufacturing facility
in Guwahati, Assam.

2017 Demerges and gets listed as a
separate entity

2018 Gets listed on the stock
exchanges

2019 Launched India's first smart ceiling fan

2020 Entered the 'Fortune India 500' list

Accolades as glorious as our range

Our unwavering commitment to quality, innovation and excellent customer service has been recognised over and over again. We have been conferred with the globally acclaimed 'Superbrand' status in 2015, 2017 and 2019, 'Best innovative Brand' award in 2018, 'Asia's Most Promising Brand' award in 2019 and 'The Economic Times Best Brand' award in 2020.

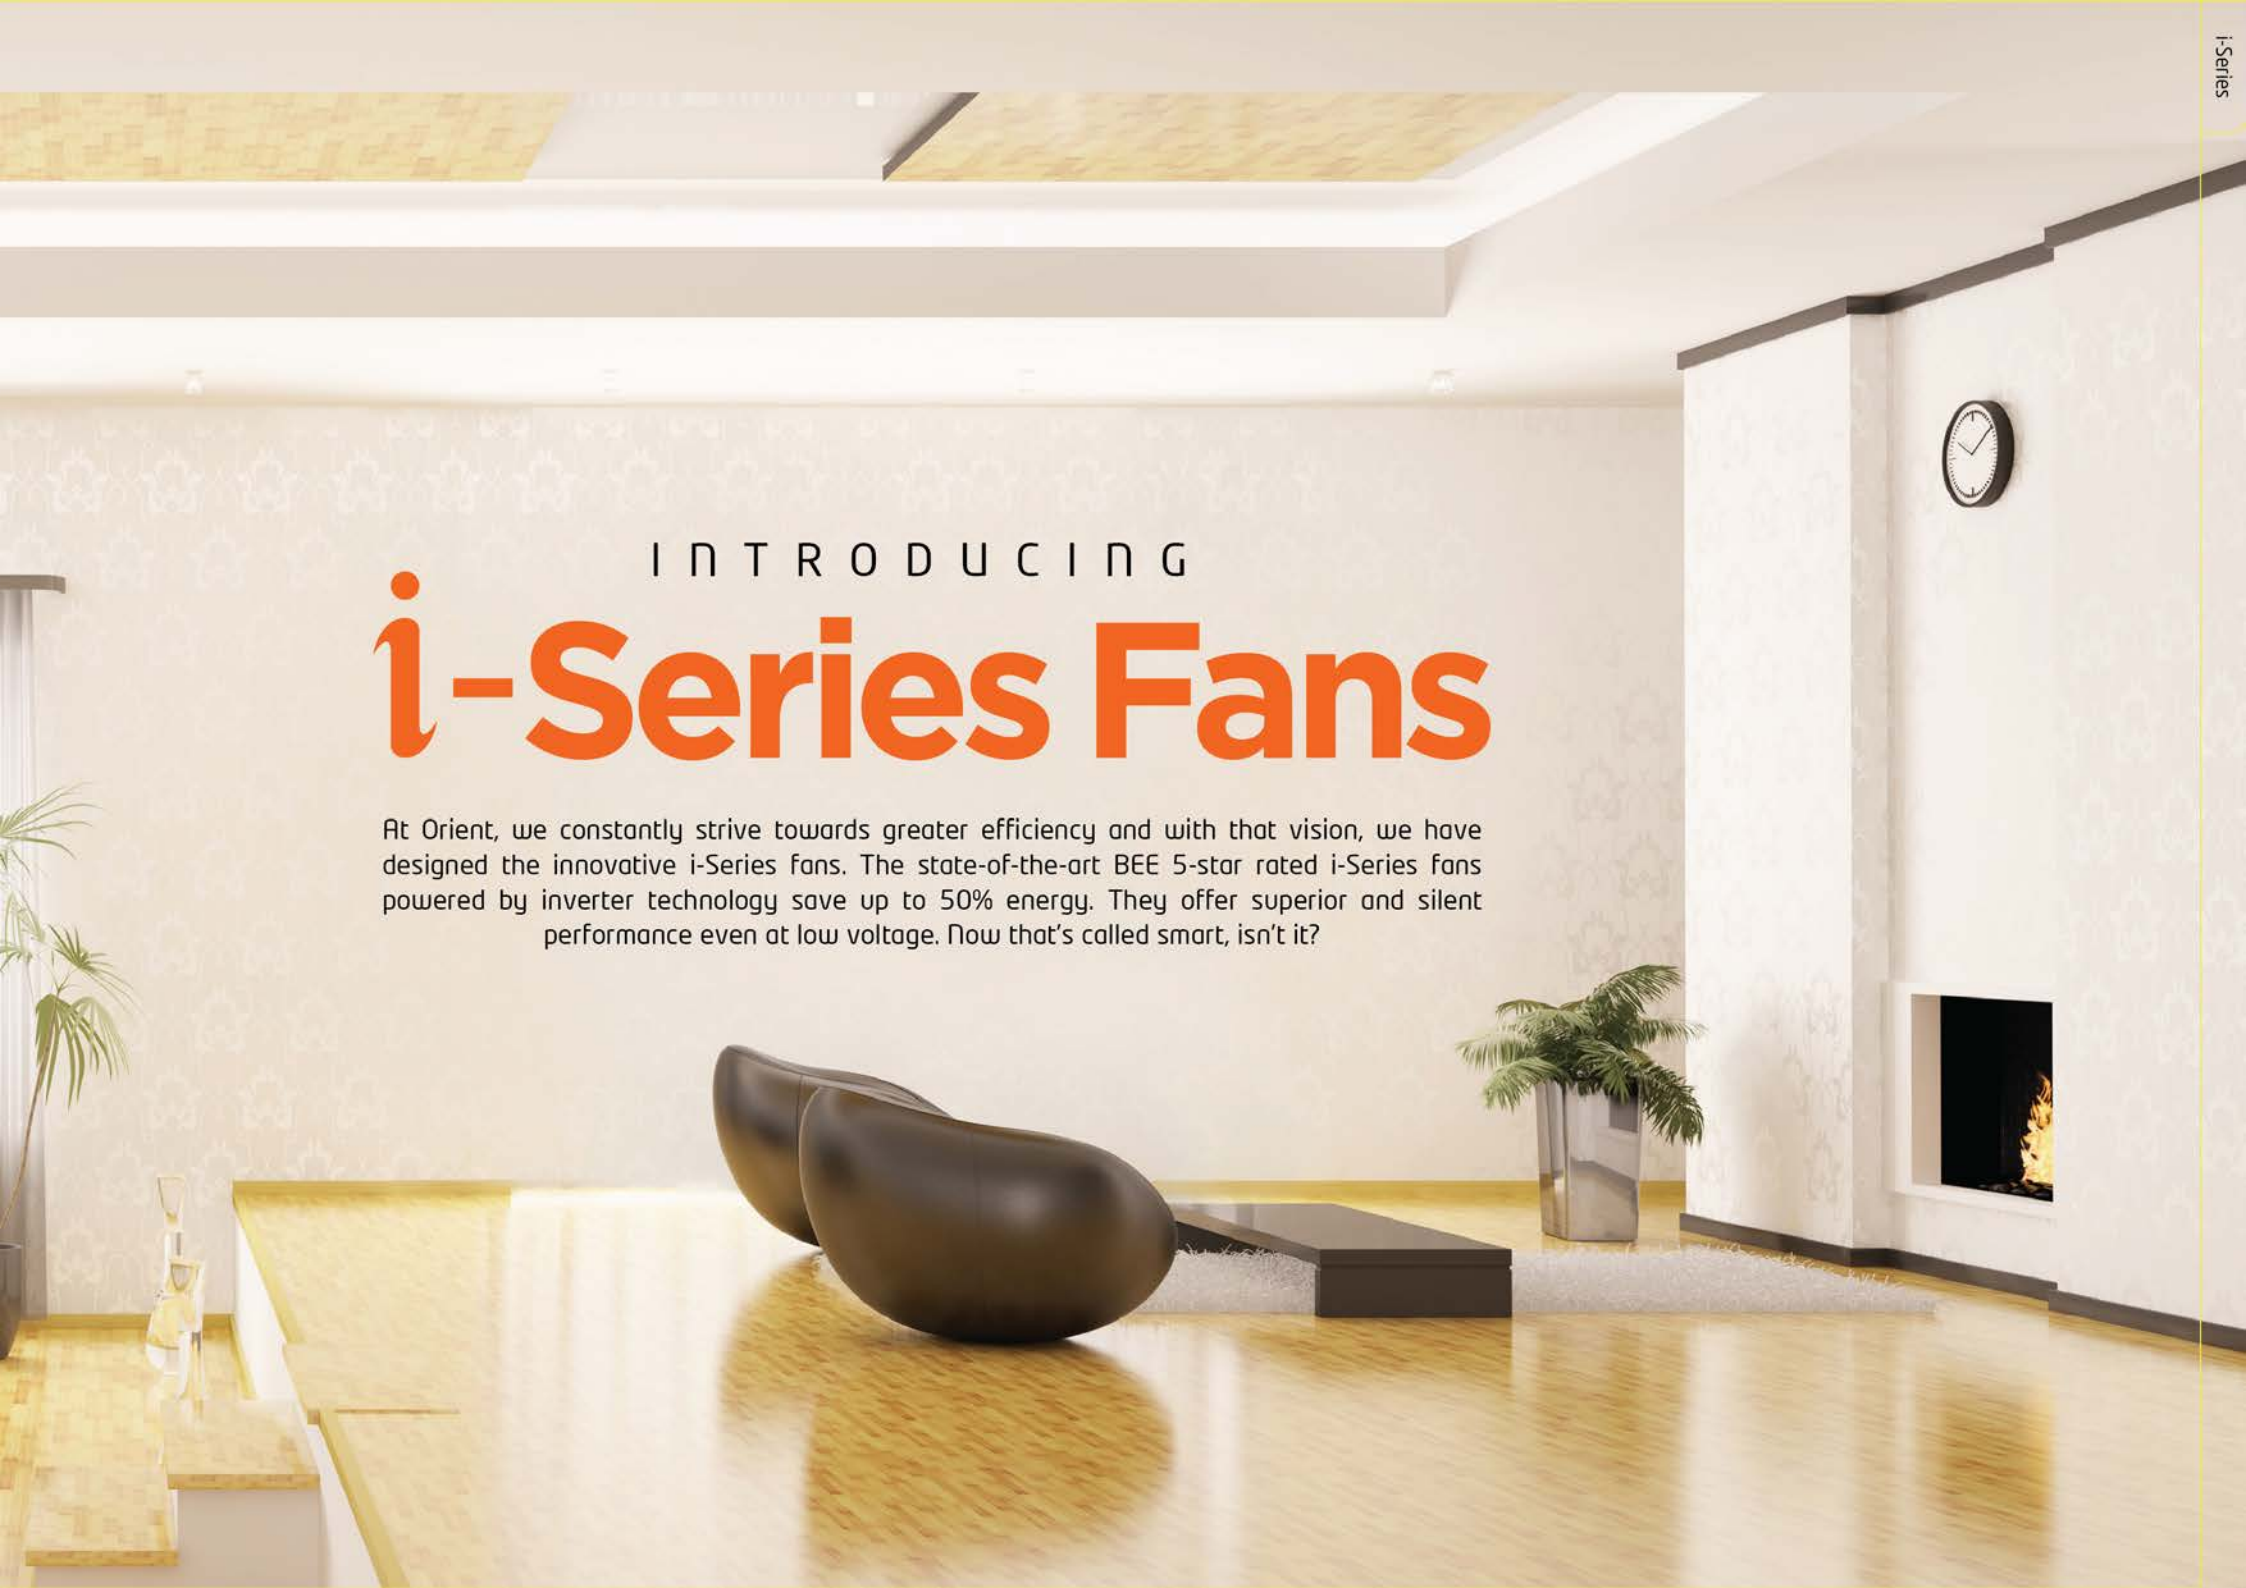

We have also been recognised by the Limca Book of Records for producing the maximum number of ceiling fans from a single manufacturing unit in 2014-15. We have been consistently awarded the 'Star Performer' for many years by the Engineering Export Promotion Council (EEPC). Last but not the least, we're rated as 'Star Export House' by the Ministry of Commerce and Industry, Government of India.

INTRODUCING

i-Series Fans

At Orient, we constantly strive towards greater efficiency and with that vision, we have designed the innovative i-Series fans. The state-of-the-art BEE 5-star rated i-Series fans powered by inverter technology save up to 50% energy. They offer superior and silent performance even at low voltage. Now that's called smart, isn't it?

50% ELECTRICITY SAVINGS. 100% INVERTER TECHNOLOGY.

| | CONVENTIONAL FAN | i-Series Fans |
|----------------------------------|------------------|------------------|
| Power consumption | 75W | 32W |
| Hours of usage per day | 16 | 16 |
| KWhr Units per day | 1.2 | 0.512 |
| Electricity bill per day | ₹7.8 | ₹3.33 |
| Electricity bill per annum | ₹2847 | ₹1215 |
| Carbon foot print reduction (kg) | 0.72 | 0.31 |
| Fan operation | Normal Regulator | Normal Regulator |
| Annual savings on 1 Fan | | ₹1632 |
| Annual savings on 4 Fans | | ₹6529 |

Note : 0.596 kilograms of CO₂ are currently produced for each kilowatt hour of electricity generated.

PRESENTING **Aero Series**

The new age of fans is here, and it won't be an overstatement to call the Orient Aero Series as the flag-bearer of this change. The Aero Series fans have many sides to them. They are bold, dynamic and premium. They also are technologically unmatched, governed by the core principle of aerodynamics, applied in aircrafts and Formula One cars.

This design and the use of new-age material reduce friction and air turbulence like never before. The result? Drastically reduced fan noise and an unmatched air thrust. So, wait no further. The coolness, the silence and the future await you.

Aeroslim

Aerolite

Aerostorm

Aerocool

AEROSLIM

**Presenting Orient Aeroslim:-
India's first inverter fan.**

Set to redefine ceiling fans with its one-of-a-kind cylindrical design, the Orient Aeroslim will be the centre of attraction in every room. Its telescopic adjustable mounting compliments both traditional and modern ceilings. The seamless design and the premium hydrographic finish paired with the PU paint make this fan an objet d'art.

Aeroslim takes the technological genius of the 'very silent, very powerful' Aeroseries fans to a whole new level. Its advanced aerodynamic blades give an impressive air delivery of 260CMM, and its super-efficient inverter motor works on just 40W of power while ensuring silent operation at voltages as low as 140V. The Aeroslim has a sweep of 1200 mm, with blades made of high-grade glass-filled compounded ABS, making them bend-proof, rust-proof and of course, easy to clean.

Wait, there's more to the Aeroslim. This smart fan is IoT-enabled, putting comfort and control at your fingertips. The IoT control gives users the freedom to manage fan speed and modes, reverse rotation and lighting. With mesmerising looks, aerodynamic design, remote-controlled operation and IoT technology, the Orient Aeroslim has everything you could ask for in a fan.

AEROSTORM

Art meets technology

Inspired by the ground-breaking winglet technology in modern aircrafts, Orient's new-age Aerostorm fan is revolutionary in its own right. The unique winglet design of the blades minimises the vortex, delivering higher air thrust and minimal noise.

How does it work?

The pressure at the wings creates a vortex and drag. The winglets help reduce this vortex at the wings, resulting in a smoother functioning and lesser noise.

- Aerodynamic blade design for higher thrust and air delivery
- Winglet in blades minimizes the air vortex and noise
- Eye-catching spiral curves in canopy, curves in blades and bottom cover plate
- High-gloss PU finish
- 100% rust-free blades made of high-grade compounded ABS for durability
- Sturdiest and heaviest motor design for longer life

AEROCOOL

The perfect blend of design and functionality

Orient AeroCool takes the technological genius of Aerostorm a step further. Apart from having the winglet, the blades are shaped after the aerofoil design of modern aircraft wings. This results in higher lift, better thrust and lower noise.

How does it work?

The air delivery of a fan depends on the air velocity and the area covered by it. If the air thrust increases, so does the air delivery. The aerofoil design helps in increasing the air thrust, and therefore the air delivery.

- Aerofoil blade design for higher thrust and air delivery
- Winglet in blades minimizes the air vortex and noise
- High-gloss PU finish
- Awe-inspiring seamless design
- 100% rust-free blades made of high-grade compounded ABS for durability
- Sturdiest and heaviest motor design for longer life

AEROLITE

Aerolite is similar to Orient Aeroquiet, only better. It comes with an additional benefit of having an LED light panel underneath. Now enjoy a heavenly silence under the bright light of LED.

How does it work?

The air delivery of a fan depends on the air velocity and the area covered by it. If the air thrust increases, so does the air delivery. The aerodynamic design helps in increasing the air thrust, and therefore the air delivery.

- Warm white LED light
- Aerodynamic profile blades for high air delivery
- 100% rust-free blades made of high-grade glass-filled ABS for strength & longer life
- High-gloss premium finish with PU paint
- Smooth airflow for silent operation
- Sturdiest & heaviest motor design for longer life
- Double ball bearing for smooth & noise-free operation

AEROQUIET

Very silent. Very powerful. That's Aeroquiet for you. The fan's aerodynamic blades and double ball-bearing design promise the highest-ever air flow served with a heavenly silence. Club these with a curvaceous silhouette, stainless steel decorative rim and high-gloss PU finish, and Aeroquiet is a winner all the way.

- Aerodynamic profile blades for high air delivery
- 100% rust-free blades made of high-grade glass-filled ABS for strength & longer life
- High-gloss premium finish with PU paint
- Smooth airflow for silent operation
- Sturdiest & heaviest motor design for longer life

Sweep (mm) : 600

Air delivery : 300 CMM

RPM : 1450

WALL FAN

Air circulator motor for high air delivery

Narrow blade profile, with aerodynamically designed blades for low noise

Floating arrangement for changing the position of oscillation

Tilt adjustment for adjusting the fan head tilt up to 15-degree

Air circulator motor for high air delivery

Narrow blade profile, with aerodynamically designed blades for low noise

Floating arrangement for changing the position of oscillation

Air direction control by telescopic height adjustment & motor oscillation

STAND FAN

THUNDERSTORM STAND FAN

Sweep (mm) : 600

Air delivery : 300 CMM

RPM : 1450

HEAVY DUTY EXHAUST

Sweep (mm) : 300, 380, 450, 450, 600

Air delivery : 1750, 3500, 3900, 6200, 10000 M³/Hr

RPM : 1400, 1400, 900, 1400, 900

HEAVY DUTY
EXHAUST

Up & down
tilt mechanism

Motor protection
thermal overload protection
device with auto reset

90-degree
oscillation

Spiral guard design
ensure international
safety standard

Designed to effectively combat
pollution. Sucks out smoke, dust,
colour & pollutants, making
the workplace clean and fresh

WALL AC 18

Sweep (mm) : 450

Air delivery : 135 CMM

RPM : 1400

WALL AC 18

Environment protection with durable powder coating

High torque gear box with safety clutch

Indexed floating system in the motor head

Spiral guard design ensure international safety standard

Powerful air circulator motor for continuous operation

Best-in-category air thrust

STAND AC-18

Sweep (mm) : 450

Air delivery : 135 CMM

RPM : 1400

STAND AC 18

High torque gear box with safety clutch

Best-in-category air thrust

3-speed control

Broad blade profile for low noise

Up & down tilt mechanism

Motor protection thermal overload protection device with auto-reset

90-degree oscillation

Spiral guard design ensure international safety standard

Powerful air circulator motor for high air delivery & thrust

STAND AC-24

Sweep (mm) : 600

Air delivery : 250 CMM

RPM : 1375

STAND AC 24

| Technical Specification | Stand AC - 18 | Stand AC - 24 |
|-----------------------------------|---------------|---------------|

| HOW TO SELECT THE CORRECT ORIENT ELECTRIC CEILING FAN | | | | | |
|---|----------|------|------|-------------------------|------------------------|
| ROOM SIZE | FAN SIZE | | | PSPD Value 3 Blades | PSPD Value 4 Blades |
| | mm | feet | inch | | |
| 4x4.95m To 4.55x4.55m | 1400 | 4.5 | 56 | 480 | |
| 4x4.95m To 4.55x4.55m | 1300 | 4.2 | 52 | 5 Blade Fans | |
| 3x4.00m To 3.65x3.65m | 1200 | 3.9 | 48 | 420/440/460/475/480/580 | 470/480 |
| 2.5x3.3m To 3x3m | 1050 | 3.4 | 42 | 410/425 | |
| 2.5x2.4m To 2x3m | 900 | 2.9 | 36 | 400/410 | |
| Important: To maximize air delivery over the required area, your Orient Electric ceiling fan should be 2.1 meter or more from the ground and 30cm or more below the ceiling. For large rooms with more than one fan, the center distance between each will depend on sweeps. | | | | | |

| | | | | |
|-----------------|--------|--------|--------|-------|
| Sweep | 1400mm | 1200mm | 1050mm | 900mm |
| Center Distance | 3m | 2.5m | 2m | 1.8m |

- Visuals shown in the brochure, may vary slightly from actual product
- All ceiling fans are with double ball bearing
- Air delivery may vary $\pm 5\%$
- All specifications are subject to change without any prior notice
- Models may change during the year
